Objective

To obtain the Moves Analyst position at BrokerLink, leveraging 9+ years of enterprise IT and client service experience, strong organizational and coordination skills, and a proven ability to manage complex workflows and communicate effectively with clients and cross-functional teams in a fast-paced environment.

Highlights of Qualifications

- **9+ years of client-facing service experience** in high-volume enterprise environments, consistently delivering professional, accurate, and timely support to diverse client populations including VIP and executive stakeholders.
- **Proven coordination and case management skills:** managed end-to-end workflows across multiple concurrent accounts, tracking status, prioritizing tasks, and coordinating between cross-functional teams to meet tight deadlines.
- **Strong attention to detail and documentation accuracy:** maintained precise records in ServiceNow and Confluence across large-scale enterprise environments, ensuring data integrity and audit-ready documentation at all times.
- **Effective communicator across technical and non-technical audiences:** delivered end-user training, guided clients through transitions, and produced clear written reports and knowledge base articles tailored to varied stakeholder needs.
- **Experience supporting clients through complex processes and transitions:** guided customers through account migrations, onboarding workflows, and multi-step service requests while maintaining a high standard of professionalism and client satisfaction.
- **Proficient in Microsoft Office Suite and cloud-based platforms** (Microsoft 365, SharePoint, Teams, Outlook), with hands-on experience managing data, coordinating communications, and supporting organizational workflows in digital environments.

Technical Skills

Operating Systems: Windows 10/11, Windows Server 2016/2019/2022, macOS, Linux, Android, iOS

Service Desk & ITSM: ServiceNow, Jira, Remedy, Confluence, Bomgar/ConnectWise, RDP; ITIL Incident/Change/Problem Management

Networking: TCP/IP, DNS, DHCP, VLANs, VPN (client & site-to-site), routing/subnetting, Cisco IOS/ASA

Identity & Access: Active Directory, Azure AD/Entra ID, MFA, RBAC, Group Policy (GPO), AD Replication, Office 365, Exchange

Endpoint & Imaging: Microsoft Intune, SCCM, Windows Autopilot, DISM, sysprep, OS imaging & patching

Education & Certifications

Cloud Computing Technologies (T465) — Diploma Program

05/2026 – 04/2027

George Brown College | Toronto, Ontario | Currently enrolled, Semester 1

- **Desktop OS:** Windows 10/11 deployment, imaging, BitLocker, Storage Spaces — toward **MD-102 & MCSE**.
- **Windows Server:** Active Directory, DNS, DHCP, WDS, Server Core, deduplication — toward **MD-102 & MCSE/MCSA**.
- **Networking:** TCP/IP, subnetting, Cisco routing & switching, VLANs, NAT — toward **LPI 010-160 & CCST**.
- **M365 Admin:** Exchange Online, SharePoint, Teams, Azure AD, Intune, Conditional Access — toward **MS-900 & MS-102**.
- **PowerShell & Graph API:** hands-on labs for user provisioning, license assignment, and group management in live M365 tenant.
- Structured preparation toward **MD-102, LPI 010-160, CCST, MCSE, MS-900, and MS-102** — complementing existing CCNA and MCSE certifications.

- **Master of Technology — Computer Science & Engineering** — Kalinga University, India 2018
- **Bachelor of Technology — Information Technology** — Guru Gobind Singh Indraprastha University 2016

Professional Experience

IT Service Desk Specialist

HCL Technologies Canada (via Vdart Canada Inc.) | Mississauga, ON

01/2025 – 12/2025

- Provided **L2 technical support** across multiple enterprise client accounts — handling device provisioning, software troubleshooting, access issues, and user account management day-to-day.
- **Managed user accounts and device enrollment** in Microsoft Intune and Azure Entra ID: device compliance policies, app deployment, MFA setup, and conditional access troubleshooting.
- **Resolved hardware and software incidents** for desktops, laptops, and peripherals; documented steps clearly in ServiceNow and escalated complex issues to L2/L3 with full context to support faster resolution.
- **Supported end-users through technology transitions** — new device rollouts, application changes, and account migrations — communicating clearly with non-technical users throughout.
- Created and updated **Knowledge Base articles** in Confluence, standardizing resolution steps for recurring issues across the team.
- Used **ServiceNow** to log, prioritize, and close incidents and service requests per ITIL workflows; maintained accurate records for change and incident management.
- Delivered **white-glove technical support to VIP and executive users**, managing escalations with professionalism and discretion.

Computer Network & Hardware Technician (Internship)

Progress Career Planning Institute | Toronto, ON

07/2024 – 12/2024

- Configured and troubleshooted enterprise **network protocols** (OSPF, EIGRP, VLANs, STP, NAT, ACLs) using Cisco Packet Tracer and a physical CCNA lab rack (3x Cisco 1941 routers, 3x Cisco 2960 switches).
- Built expertise in **VMware Workstation and Hyper-V** for OS deployments, network simulation, and advanced troubleshooting scenarios.
- Earned **CompTIA A+ (220-1101 / 220-1102)** and completed **CCNA recertification (2025)**; documented lab processes in ticketing systems to support knowledge sharing.

Technical Support Expert – Windows & macOS (Microsoft EPS – Premier)

Concentrix | Gurgaon, India

01/2020 – 04/2022

- Delivered **L2 enterprise support** for Microsoft Premier clients on Windows Server (2008–2019), Windows 10, and macOS environments — owning complex escalations end-to-end across OS, identity, and connectivity issues.
- **Acted in a team-lead capacity**: led Brown Bag knowledge-sharing sessions, mentored new Technical Support Engineers on incident triage, RCA methodology, and documentation standards.
- Used **Event Viewer, Perfmon, Microsoft NetMon, and Wireshark** to analyze logs and network traces, diagnosing DNS, DHCP, SMB, and AD Replication failures on mission-critical systems.
- **Administered Active Directory and Microsoft Exchange** for enterprise clients: users/groups, GPOs, FSMO roles, mailbox configuration, and hybrid identity management.
- **Created and maintained SOPs and runbooks** for recurring issue types, reducing repeat escalations and enabling junior team members to self-resolve Tier-1 issues independently.
- Partnered with **Microsoft Escalation Engineering teams** to drive resolution of Severity A/B incidents; consistently met SLA targets and exceeded CSAT benchmarks.

Lead Technical Support Associate-II (Helpdesk)

Teleperformance | Gurgaon, India

10/2018 – 01/2020

- **Served as team lead** on the helpdesk floor — acted as escalation point, distributed tickets, and coordinated with cross-functional teams to resolve high-priority B2B FinTech client incidents.
- Delivered **end-user training sessions**, empowering users to self-resolve common issues and measurably reducing inbound ticket volume.
- Performed **Active Directory administration**: user/computer account creation, password resets, group management, and GPO enforcement for enterprise clients.
- Adhered to **ITIL Incident & Problem Management** standards; managed escalations with full RCA documentation and consistently exceeded CSAT targets.

Senior Technical Support Expert

iYogi Limited | Gurgaon, India

06/2014 – 04/2015

- Delivered remote support across **Windows, macOS, and Android** platforms, resolving complex hardware and software issues for a diverse consumer and SMB client base.
- Participated in escalation meetings and knowledge-sharing sessions, providing technical expertise to support peers and contributing to continuous-improvement initiatives.
- Diagnosed and resolved **internet, LAN, and network device issues** including routers, modems, and wireless connectivity; supported users across the US, UK, Canada, and Australia via phone and remote tools.
- Performed **software installation, OS configuration, and antivirus/spyware remediation** on PCs and laptops; handled printer setup, peripheral configuration, and data backup for end-users.
- Maintained **call tracking system and knowledge base** with resolution notes for recurring issues; escalated unresolved cases to Tier-3 with clear documentation to ensure continuity and faster closure.

Senior Network Engineer (Freelance)

Network Bridge Services Pvt. Ltd. | New Delhi, India

05/2015 – 09/2017

- Deployed and maintained **enterprise network infrastructure** for multiple clients using Cisco routers, switches, and ASA firewalls; optimized BGP/OSPF routing for high-availability dual-ISP environments.
- Configured **site-to-site VPNs, NAT, ACLs, and port security**; hardened network posture achieving a 20% reduction in security incidents across client environments.
- Used **SolarWinds and Cisco Prime** for proactive network monitoring, patching, and firmware lifecycle management; handled client escalations with vendor coordination and RCA reporting.
- Managed **device lifecycle and troubleshooting** for Cisco IOS routers and switches; performed firmware upgrades, crash file analysis, and root cause investigation to mitigate recurring hardware and software failures.
- Acted as primary point of contact for **high-profile client escalations**; coordinated with vendors for warranty replacements, interpreted complex network schematics, and delivered clear RCA reports to client stakeholders.
